Case No. U-12278

CONSUMERS ENERGY COMPANY'S
LOAD REDUCTION PROGRAM CORRECTED ANNUAL FILING FOR THE YEAR
2015

Consumers Energy Company ("Consumers Energy") makes this annual informational filing of customers enrolled in its load reduction program for the year 2015, as required by the Michigan Public Service Commission's Order Approving Application dated February 9, 2000. The Order provides: "Consumers Energy Company shall file each year on the anniversary of this order information on the number of customers enrolled in its load reduction program and the corresponding load reduction accomplished."

During the summer of 2015, Consumers Energy's demand response program for large commercial and industrial customers enrolled approximately 30 customers with 7.7 MW of load under contract. There were seven occasions in August and September 2015 when Consumers Energy called on the enrolled customers to reduce load, ranging between 3 MW and 7.7 MW, and the total load shed per event ranged from a low of 1.5 MW to a high 5.7 MW or a low of 38% of the commitment amount to a high of 164% of the commitment amount.

Consumers Energy also conducted a summer 2015 pilot with a different group of small commercial and industrial customers, enrolling two customers with 890 kW of demand response resources. There were four occasions that Consumers Energy requested these customers to

reduce load in response to high prices or loads and they responded on each occasion with load reductions ranging between approximately 900 kW and 1,200 kW.

Dated: December 19, 2016

Respectfully submitted,

CONSUMERS ENERGY COMPANY
