MPSC Approves Refund to DTE Electric Customers

July 23, 2015 – DTE Electric Company customers will see a refund during the September billing month after the Michigan Public Service Commission today approved a request by the utility to set in place a securitization bond principal and interest credit and a securitization bond tax credit.

Residential customers using 500 kilowatt-hours of electricity per month will see a decrease of \$4.10.

The utility is authorized to implement a securitization bond principal and interest credit of 0.3183 cents per kilowatt-hour and securitization bond tax credit of 0.5014 cents per kilowatt-hour.

Today's order is the final routine true-up required by Public Act 142 of 2000.

In approving the refund, the MPSC noted that the proposed adjustments are routine, the calculations are accurate, and the proposed adjustments conform to the approved methodology.

Case No. U-12478
