OPINION AND ORDER

In its October 24, 2000 order, the Commission authorized Consumers Energy Company (Consumers) to securitize up to \$468,592,000 of regulatory assets and other qualified costs. Among other issues addressed by the order, the Commission concluded that there must be periodic true-ups of the securitization bond and tax charges to ensure that the amounts collected are sufficient to service the securitization bonds and to recover the associated tax liability. The Commission stated:

The record clearly shows that not only are periodic securitization and tax charge true-ups necessary, but (to provide the certainty needed to obtain a AAA bond rating) they need to be undertaken in a way that allows for their swift and certain resolution. For this reason, the Commission finds that Consumers' proposal should be approved, but with two relatively minor changes. First, based on recent indications by the utility that annual true-ups would be sufficient until one year prior to the bonds' final maturity date (See, Consumers' initial brief, p. 9), the utility should be limited to undertaking no more than one routine true-up per year until the final year that securitization is in place. Moreover, during that

final year, true-ups shall be limited to no more than one per quarter. Second, Consumers should initiate each routine true-up by filing an application that (1) explains the basis for its proposed revision of the securitization and tax charges, (2) shows the computation of its revised charges, and (3) seeks Commission approval--on an expedited basis--of those new charges before they can be implemented. All proceedings must be completed and a final Commission order regarding the utility's request for a routine true-up must be issued within 45 days after Consumers files its application.

October 24, 2000 order, Case No. U-12505, p. 49 (footnote omitted).

On October 14, 2009, Consumers filed its eighth annual routine true-up adjustment report. Consumers requested a decrease in its bond principal and interest securitization surcharge from \$0.001358 per kilowatt-hour (kWh) to \$0.001327 per kWh for the 12-month period beginning December 1, 2009. Consumers also requested an increase in the tax surcharge for the same period from \$0.000611 per kWh to \$0.000629 per kWh.

The Commission Staff (Staff) reviewed the proposed adjustments and concluded that the adjustments are routine, the calculations are accurate, and the proposed adjustments conform to the method approved by the Commission. The Staff thus recommended that the Commission approve the true-up adjustments to take effect December 1, 2009.

After considering Consumers' filing and the Staff's review, the Commission agrees that the proposed adjustments are routine, the calculations are accurate, and the proposed adjustments conform to the approved method. Consumers should therefore be authorized to implement the adjustments as of December 1, 2009.

THEREFORE, IT IS ORDERED that:

A. As of December 1, 2009, Consumers Energy Company is authorized to decrease the bond principal and interest securitization surcharge from 1.358 mills per kilowatt-hour to 1.327 mills

per kilowatt-hour and to increase the tax surcharge from 0.611 mills per kilowatt-hour to 0.629 mills per kilowatt-hour.

B. Within 30 days of the issuance of this order, Consumers Energy Company shall file with the Commission tariff sheets essentially the same as those set forth in Exhibit A to the settlement agreement.

The Commission reserves jurisdiction and may issue further orders as necessary.

Any party desiring to appeal this order must do so in the appropriate court within 30 days after issuance and notice of this order, pursuant to MCL 462.26.

Re: Request of Consumers Energy Company for Routine True-up Adjustment of
Securitization Charge and Securitization Bond Tax Charge

Dear Ms. Kunkle:

In accordance with the October 24, 2000 and January 4, 2001 orders of the Michigan Public Service Commission (the "Commission") in MPSC Case No. U-12505, Consumers Energy Company hereby submits for the Commission's review and approval its 2009 annual routine true-up adjustment to the current Securitization Charge and Securitization Tax Charge.

This request is filed pursuant to the Commission's January 4, 2001 Order, *supra*, which provides in pertinent part:

[T]he servicer of the securitization bonds should initiate each routine true-up pursuant to Section 10k(3) of Act 142 by filing a request for adjustment that (1) explains how its proposed revision of the securitization and tax charges will ensure the expected recovery of amounts sufficient to timely provide all payments of debt service and other required amounts and charges in connection with the securitization bonds, (2) shows the computation of the proposed adjustments to the securitization charge and the tax charge currently in place, and (3) seeks Commission review and approval – on an expedited basis – of the arithmetic computations contained in the proposed adjustments before they can be implemented. All reviews conducted by the Commission of the computations shall be consistent with the requirements of Section 10k(3) of Act 142 for a true-up mechanism. This review must be completed regarding the servicer's request for adjustments to the securitization charge and the tax charge pursuant to a routine true-up within 45 days after the servicer files its request for adjustment [footnote omitted]. The determination of the Commission in response to a request for adjustment shall be provided by the Commission to the servicer within the aforementioned 45-day period. The adjustments by the Commission will be to the

securitization charge and the tax charge in effect prior to the filing of the request for adjustment and those charges shall remain in place until the adjustments have become effective and are being billed to customers.

January 4, 2001 Order at 4.

In accordance with these provisions, Consumers has attached to this letter Attachment A and Attachment B. Attachment A reflects the routine true-up adjustment formula approved by the Commission in the October 24, 2000 Financing Order issued in MPSC Case No. U-12505 and shows the computation of the proposed adjustments to the Securitization Bond and Securitization Bond Tax Charge currently in place. Attachment A demonstrates, pursuant to the January 4, 2001 order, *supra*, how the proposed revision of the securitization and tax charges will ensure the expected recovery of amounts sufficient to timely provide all payments of debt service and other required amounts and charges in connection with the securitization bonds for the period December 2009 through November 2010 and shows the computation of the proposed adjustments to the securitization charge and the tax charge currently in place. Further supporting details can be found within Attachment B.

For all of the reasons stated herein, Consumers hereby respectfully requests the Commission to review and approve on an expedited basis the computations contained in the attachments hereto consistent with the requirements of Section 10k(3) of Act 142, MCL 460.10k(3), MSA §22.13(10k)(3), the October 24, 2000 and January 4, 2001 orders issued in MPSC Case No. U-12505 and Rule C9 of the Company's electric tariffs, a copy of which is attached hereto as Attachment C. Consumers further requests that the Commission timely approve this request so that the new securitization charge of \$0.001327 per kWh and the new securitization tax charge of \$0.000629 per kWh become effective for bills rendered on and after the December billing month. It is anticipated that the newly-approved securitization charge and securitization tax charge will remain in effect until a change is authorized by the Commission in a future true-up proceeding. Upon the Commission's approval, Consumers will file updated tariff sheets associated with implementing the approved charges.

Respectfully submitted,

CONSUMERS ENERGY COMPANY

Note: (1) Securitization Tax Collected is a ratio of tax surcharge to the securitization surcharge. For the months of February 2009 through November, 2009, this amounts to a ratio of \$,0006115,001358 or 44.99% of the Securitization Cash Remitted. For December, 2008 and January, 2009, the amounts reflect a composite of the current tax ratio and previous tax ratio of \$,000535/5,001269. The composite is based on collection curve percentages used for the first two months following a change in rates per the servicing agreement. The tax amounts are retained by Consumers Energy Company.

(2) General Subaccount Funding represents a cash accumulation required for the operation of the Trust based on the highest two months projected collections (July & August 2009)

(3) Interest Accrued in the overcollateralization account balance will be used to offset the future required funding for the Overcollateralization Subaccount
