Re: Case No. U-12979

Dear Ms. Wideman:

Enclosed for filing in the above referenced matter are an original and four copies of the "**Petition To Intervene of Dearborn Industrial Generation, L.L.C. And CMS MS&T Michigan, L.L.C.**". I have also enclosed a Proof of Service. In addition, this document is being filed electronically as part of the Commission's Electronic Filings Program.

Sincerely,

Jon R. Robinson

PETITION TO INTERVENE
OF DEARBORN INDUSTRIAL GENERATION, L.L.C.
AND CMS MS&T MICHIGAN L.L.C.

Dearborn Industrial Generation, L.L.C. ("DIG") and CMS MS&T Michigan L.L.C. ("MS&T Michigan") petition to intervene in the above captioned-matter. In support of this petition, DIG and MS&T Michigan state as follows:

1. DIG is a limited liability company organized under the laws of the State of Michigan with its principal place of business at Fairlane Plaza South, 330 Town Center Drive, Suite 1100, Dearborn, Michigan. DIG is a indirect wholly-owned subsidiary of CMS Enterprises Company. CMS Enterprises Company is a wholly-owned subsidiary of CMS Energy Corporation. DIG is engaged in the construction and operation of electric and steam generating facilities and other electrical equipment located on or contiguous to, the Rouge Complex site in Dearborn, Michigan. The generating facilities owned and operated by DIG will, when completed, have a nominal electric generating capability of approximately 710 megawatts. DIG will sell electric capacity and energy to wholesale purchasers, including MS&T Michigan.

2. MS&T Michigan is a limited liability company organized under the laws of the State of Michigan with its principal place of business at One Jackson Square, Suite 1060, Jackson, Michigan. MS&T Michigan is a wholly-owned subsidiary of CMS Marketing, Services

and Trading Company, which is a wholly-owned subsidiary of CMS Enterprises Company. MS&T-Michigan has entered into agreements to provide electric service to Rouge Steel Company (including its Ladle Metallurgical Furnace facility), Ford Motor Company, and Double Eagle Steel Coating Company. Each of these customers is located on, or is contiguous to, the Rouge Complex site.

3. In connection with the construction of the electrical generating facilities owned and operated by DIG, numerous issues have arisen concerning, among other things, the interconnection of the DIG generating facilities with the facilities of The Detroit Edison Company (“Detroit Edison”), the metering arrangements associated with the project, the application of Detroit Edison’s retail and wholesale tariffs to the project, and the extent to which federal or state jurisdiction governs the various issues. DIG and MS&T Michigan have been actively involved with Detroit Edison in attempting to resolve all of these issues. DIG and MS&T Michigan have also participated in proceedings before the Federal Energy Regulatory Commission in which these issues have been raised.

4. The matters raised in Detroit Edison’s “Request for Ex Parte Declaratory Ruling Regarding MPSC Jurisdiction” (“Request”) are matters in which DIG and MS&T Michigan are directly concerned, and which directly affect the business relationships of DIG and MS&T Michigan with the customers identified above and with Detroit Edison.

5. DIG and MS&T Michigan take the position that the Michigan Public Service Commission should determine the extent to which it has jurisdiction over the matters raised in the Request of Detroit Edison, and further that the MPSC should address and resolve those matters over which it determines it has such jurisdiction.

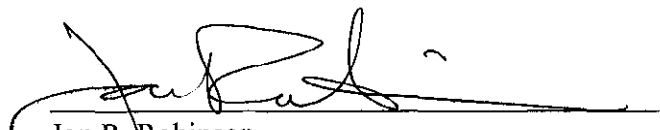

WHEREFORE, Dearborn Industrial Generation, L.L.C. and CMS MS&T Michigan, L.L.C. respectfully request that this Petition to Intervene be granted, that they be accorded full rights of parties to this case, and that they be granted such other and additional relief as the Commission deems appropriate.

Respectfully submitted,

DEARBORN INDUSTRIAL GENERATION, L.L.C.
CMS MS&T MICHIGAN L.L.C.
