MPSC Case No: U-20851

Dear Ms. Felice:

DTE Electric Company (“the Company”) is filing this Notice in compliance with Paragraph 5 of the Partial Settlement Agreement approved in MPSC Case No. U-20713 to provide notice per MCL 460.1074 its regulatory liability was negative for the months of September and October 2023 and is anticipated to be negative for November. The regulatory liability is projected to continue as negative for less than 12 months.

DTE electric will not collect any costs in excess of the relevant Transfer Price associated with its unsubscribed Voluntary Green Program (VGP) and Renewable Energy Plan (REP) resources through its Power Supply Cost Recovery (PSCR) factor or any other retail rate charge and will instead maintain an accounting of said costs until it acquires a REP regulatory liability from which to draw those costs, or otherwise elects or is required to institute a REP surcharge.

Please contact me if you have any questions or concerns regarding this matter.

Very truly yours,
