RE: **Lightyear Network Solutions, LLC**
Case No. U-14899: In the matter, on the Commission's own motion, to
implement the provisions of Section 301a of 2005 PA 235
Response to Order issued May 25, 2006

To whom it may concern:

This response to the directives issued in the above referenced order is hereby submitted on behalf of Lightyear Network Solutions, LLC ("Lightyear"), regarding its implementation of a primary basic local exchange service offering.

The Primary Basic Local Exchange Service (PBLES) rate has been input into Lightyear's billing system at the level required by staff of \$24.99. Since all lines ported over from underlying ILECs automatically come with features included, Lightyear must manually block these features for any customer who opts for this service. The procedures to do this are in place. Current customer service personnel have been trained to accept requests for this service in Michigan, and new service personnel will be similarly trained in the Michigan PBLES requirement.

Lightyear does not actively market this offering, and does not believe that it is required to do so. The basic service rate Lightyear was required by staff to tariff is below Lightyear's per line cost of \$27.50, as set forth in its Commercial Agreement with SBC. Lightyear will accept requests for this basic service but does not plan on undertaking additional expense to promote it.

Lightyear has received two inquiries that could be construed as relating to a basic service offering in Michigan. As of May 1, 2006, no customers have placed orders for the Michigan basic service rate.

Please acknowledge receipt of this filing by return e-mail. Any questions you may have regarding this filing may be directed to my attention at (407) 740-3004 or morton@tminc.com. Thank you for your assistance.

Sincerely,

Robin Norton, Consultant to
Lightyear Network Solutions, LLC
