Houston, TX 77002

Re: January Gas Flow and new ASAT

Dear Mr. Weyland:

As we did for the months of November and December, MichCon Gathering is willing to extend Dominion's ASATT 1, dated September 12, 1994, and ASATT 16, dated February 6, 1995, one additional month and will continue to treat and transport Dominion's gas under such agreements for the month of January, invoicing Dominion for such charges. If Dominion has not executed the ASAT agreement forwarded to you December 1, 2005, and provided proof that its gas meets the specifications of Section VI. Gas Quality Specifications of such agreement prior to February 1, 2006, Dominion's gas will be considered trespass gas in accordance with the trespass gas procedures provided to you on December 21, 2005.

Please note that in no manner is MichCon Gathering conceding or admitting to any of the allegations stated in Dominion's correspondence of December 12, 2005. Rather, MichCon Gathering is allowing such extension solely to continue flowing gas through the holiday season and to allow the parties additional time to sort out these issues.

Please contact me with any questions.

Sincerely,

A handwritten signature in dark ink, appearing to read "Edward T. Rowling". The signature is fluid and cursive, with a large, stylized "R" at the end.
