

To Whom It May Concern

In Case U-14838, The Commission should insist that DTE Refund the \$44 Million it gauged from its Customers through over earning. The Commission should send a message to all Utilities that Price gauging won't be tolerated. In developing its 21st Century Energy Plan, the Commission should make renewable energy and energy-savings a Priority. The cost of Wind energy is declining and will be cheaper in the long run. The Energy Plan should encourage and fund energy saving Programs. For every \$1 spent on energy efficiency, Customers save \$2. This is a better use of money than building more and more fossil-fueled electric plants.
