

JUNE 19, 2006

Commissioners:

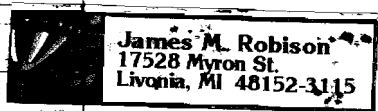

As a citizen of Michigan I am writing this letter to support clean, reliable and affordable energy. It is imperative that the Commission should insist that DTE should refund the \$44 million (that's six zero's) it gouged from its customers through over-earnings. The Commission should send a message to all utilities that price gouging won't be tolerated.

The Commission should make renewable energy and energy-savings a priority. The cost of alternative energy sources such as wind and solar will be cheaper in the long run.

Building more and more costly fossil-fueled electric plants is both inefficient and could have unforeseen tragic global political ramifications.

PLEASE CONSIDER THE LIVES OF OUR
FUTURE GENERATIONS. THE DECISIONS
YOU MAKE NOW WILL BE PAID BY MY
GRAND-CHILDREN AND EVERYTHING I
HAVE EVER DONE IS TO MAKE THEIR
LIVES BETTER THAN MY OWN. WE OWE IT
TO ~~OUR~~ THOSE WHOM MADE IT POSSIBLE
FOR ME TO MAKE MY THOUGHTS KNOWN
WITHOUT FEAR OF REPRISAL.

Sincerely yours,
James M. Robison

To Commissioner

Larry Reeside

I would appreciate
a response.

Tuesday
June 20, 2006

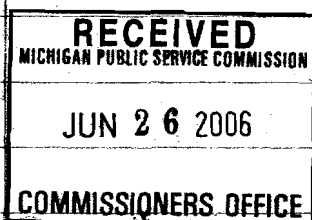

Dear Commissioners
Peter Lark, Chapelle and Martinez,

Please consider that DTE refund the
\$44 Million it gouged from customers
three over earnings. Price gouging on
utilities won't be tolerated.

Encourage and fund energy-saving
programs.

Shirley Dorries
151 Hi Hill
Lake Orion Mich
48360

Please let me know how these programs
go. Thanks

Commissioners,

Please consider the following:

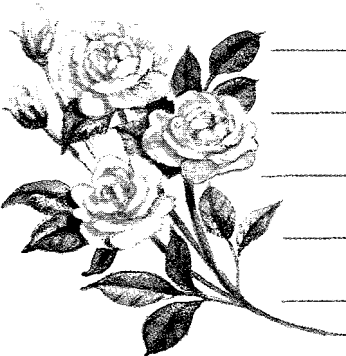

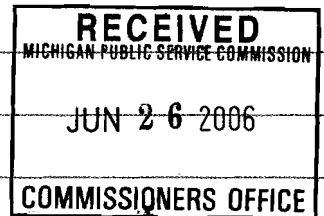

1. Refund money that DTE overcharged customers.
 2. Make renewable energy and energy savings a top priority.
 3. Fund energy-saving programs.
- Please respond.

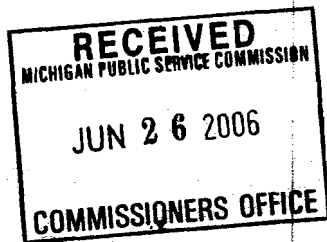

Thank you,

Mrs. Rolf

June 23, 2006

Dear Commissioners,

It seems to me that price gouging by DTE should absolutely be against the law. With all the unemployment, many people are having a hard time caring for their families with the bare necessities. They can't afford to pay the DTE's budget.

How can we stand by and let this happen? Some policing definitely needs to be done. Am I correct?

I hope The Michigan Consumer Federation has a chance to voice many of our opinions against this unfair practice.

Barbara Harp

36430 Ladywood St.

Livonia, Mi. 48154

Dear Commissioners

Peter Lark, Laura Chapelle
and Monica Martinez,

In Case U-14838, the Commission should insist that DTE refund the \$44 million it gouged from its customers through over earnings. The Commission should send a message to all utilities that price gouging won't be tolerated.

In developing its 21st Century Energy Plan, the Commission should make renewable energy and

energy-savings a priority. The cost of wind energy is declining and will be cheaper in the long run.

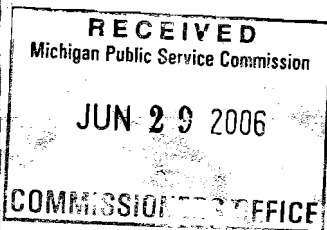

The Energy Plan should encourage and fund energy-saving programs. For every \$1 spent on energy-efficiency, customers save \$2. This is a better use of money than building more and more costly fossil-fueled electric plants.

Thank you for your
consideration,
Kisa M. Williams

June 26/

2-06

Hayla Rocky

Dear Commissioner,

I'd like to state my opinion about Michigan's future electric needs. I have 3 points to state. Firstly, the Commission should insist that DTE refund the \$44 million it gouged from its customers through over-earnings. Secondly, the commission should make renewable energy ~~energy~~ savings a priority. The cost of wind energy is declining ~~is~~ will be cheaper in the long run. ~~Last but not least~~, for every \$1 spent on energy-efficiency, customers save \$3. This is ~~a~~ a better use of money than building more ~~more~~ more costly fossil fueled electric plants. Please reply to these statements to make ME a better place to live.

Sincerely,

Hayla D Rocky

Commissioners, Lark, Chapelle and Martinez

I am writing you in regards to Michigan's future electric needs. I believe MI is capable of implementing energy efficient programs to help customers save money and energy.

We residents need your help, your voice to make a change. Renewable energy and energy savings should be a priority.

I can't believe we are letting utility companies make decisions for us. They decided that buying power from out of state and Canadian companies is a good idea. Why are we shipping money out of MI? MI has great potential to produce energy with wind power. Renewable energy will provide long term cost savings while also keeping money in MI.

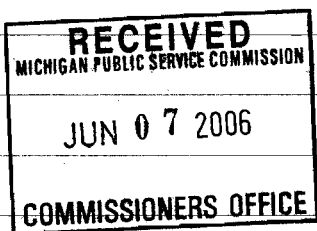

The commission should insist that DTE refund the \$44 million it gouged from its customers. I don't know if that includes you but it

does include me. Please send a message to all utilities that price gouging WONT be tolerated.

MI does not need more power plants. What we need is an Energy plan for the 21st Century. The plan should encourage and fund energy saving programs. For every \$1.00 spent on energy-efficiency, Customers save \$2.00. This is definitely a better use of money than building or repairing fossil-fueled electric plants.

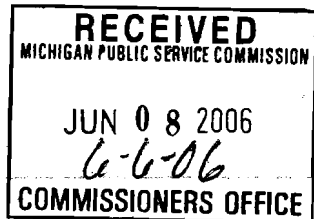

Something needs to be done. MI needs clean and affordable electricity now and in the future.

Thank you for taking the time to read my letter. I hope you take everything I said into consideration. If you could, please respond and let me know what is being done to ensure a better Michigan.

Dear Commissioners-

Clean energy should be more of a serious priority in MI as we have the wind to provide it! Please think about this issue seriously. With rising gas prices & oil shortages already a problem, we cannot ~~not~~ afford to continue hurting our environment or our wallets. Wind power is an affordable & useful strategy to aid in our energy crisis.

Thank you for your time

Sincerely

Rachel Liepman

COMMISSIONERS OFFICE

Michigan Public Service
Commission

Peter Lark, Laura Chapelle,
and Monica Martinez,

I would like to request
that you please help the
Michigan consumers by
making a united effort to
see that DTE refund the
\$44 million that they gouged
from its customers through
over-earnings in case
U-14838. Send a message

to all utilities that price gouging will not be tolerated.

Continue your help to the consumers by making renewable energy and energy savings a priority in developing your 21st Century Energy Plan. Wind energy is a very viable source to steer all of us to.

The new energy plan should both encourage and

fund energy saving
programs. Every dollar
spent steering the U.S.
away from its total
dependence on fossil fuel
is a step towards
giving us, and more so
our children and their
children a brighter and
healthier future.

Thank You

Shene Perry

PLEASE SEND ME AN UPDATE ON
YOUR PROGRESS.

Friday, June 16, 2006

Dear Commissioners Lark, Chapelle
and Martinez,

I am writing you to voice my support
for clear, reliable and affordable energy.
As a homeowner in West Michigan I try
to be as conservative in my energy
consumption as possible.

I would like to express ^{my opinion} ~~that~~ on the
three following issues:

- ① Utilities should not be allowed to
overcharge their customers. Please
insist that DTE refund the \$44
million it overcharged. Case # U-14838.
- ② Please make renewable energy and
energy-savings a priority as you develop
your 21st Century Energy Plan.
- ③ Please ensure that the Energy Plan
encourages and funds energy-saving
programs.

I am grateful for this opportunity to speak to you and commend you all for the hard work you do.

Please help to motivate and encourage the good people of our state to make Renewable energy resources a priority.

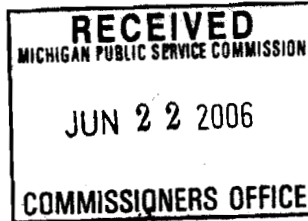

Our Childrens future is in your hands.

Sincerely,

Frances M. Roth

Holt, MI 48842

6-19-06

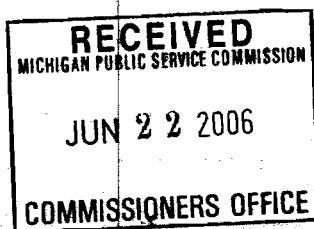

Dear Commissioners Peter Lark, Laura Capelle & Monica Mortimer,

I am writing to you because of my concern regarding Michigan's over-dependence on fossil fuels. I believe it is inefficient and short-sighted. We need a more progressive approach that invests in renewable energy and energy conservation. These aren't new concepts, but they are still worthy of our attention and should be pursued aggressively.

In addition, the fact that DTE was allowed to gouge \$44 million from Michigan consumers (case U-14838) is absolutely criminal. If the Commission does not insist that this money be refunded, that would be negligent and completely unacceptable. I urge you to investigate this matter and demand a refund on behalf of the citizens you represent.

Thank you for your time,
Margaret Johnson

Michigan Public Service Commission
P. O. Box 30221
Lansing, MI 48909

Some points to make in your letter:

1. **In case U-14838**, the Commission should insist that DTE refund the \$44 million it gouged from its customers through over-earnings. The commission should send a message to all utilities that price gouging won't be tolerated.
2. **In developing its 21st Century Energy Plan**, the Commission should make renewable energy and energy-savings a priority. The cost of wind energy is declining and will be cheaper in the long run.
3. **The Energy Plan should encourage and fund energy-saving programs.** For every \$1 spent on energy-efficiency, customers save \$2. This is a better use of money than building more and more costly fossil-fueled electric plants.

1. **Write one letter addressed to all three commissioners.** Encourage each family member to write a letter.
2. **A short paragraph (3-5 lines) is fine.**
3. **Ask for a reply!**
4. **Please write the letter by 8:00 tonight.** We will pick it up so that it can be bundled with all the other letters written by your neighbors.
5. **Put the letter in an addressed, stamped, and *unsealed* envelope.** This allows us to make copies of letters for our records for use when advocating on this issue.
6. **Tape the letter to the outside of your door by 8:00 tonight.** Leave the porch light on and our organizer will pick up your letter. Can you donate extra stamps for letters we collect without postage? Thanks!

Dear Commissioners Lark, Chapelle
and Martinez,

To believe in the future of
clean, reliable and affordable
energy! Please make renewable ^{energy}
and energy-savings a priority.
DTE has forged \$44 million
from its customers through over-
earnings! The Commission
should address this issue by
asking DTE to refund this
money to its customers. Send
a message that price gouging is
not tolerated! Any energy plan
should include energy savings
programs. This is especially
important and a better use of
money than building fossil-
fueled electric plants. What
about Wind Energy? It's cost
is declining and will be cheaper
in the long run.

From a concerned Michigander-

Annie Smith

June 7, 2005

Dear

Peter Lark, Laura Chapelle
and Monica Martinez,

Please take a moment to
read this letter. We need to
make changes in Michigan -
for a cleaner, affordable and
reliable energy.

For example:

- In case U-14838 - that DTE
should refund money back to
the consumers - "Price gouging"
- What about the 21st century Energy
Plan - let's go forward with cost
effective wind power energy - Michigan
has enough wind!
- How about a Energy Plan that encourage
others to ^{conserve} ~~use~~ fossil fuels - this would

double the Savings

Please take a moment to
reply to this letter.

your support!

Telly R

Commissioners Bark, Chapelle and Martiney

Michigan has been my home for 38 years, and will continue to be for decades to come. I hope you will help to make Michigan a leader and not a follower in the renewable energy arena.

The Commission should also seek refunds from DTE and other entities that have overcharged its Michigan customers. A plan for the future for renewable resource energy should be a priority for our state. Energy saving projects should top our list as a state, instead of focusing on the woes of our so-called auto industry, and fossil fuel energy sources.

Thank you for your service,
Bob and Aubrey + family

Mrs. Leslie Dennis
2165 Chesapeake

Dear Commissioners Laura Chapelle, Peter Lark and Monica Martinez,

In case U-14838, the Commission should insist that DTE refund the \$44 million it gouged from its customers through over-earnings. The commission should send a message to all utilities that price gouging will not be tolerated.

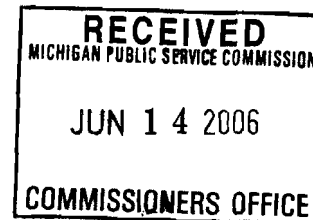

In developing its 21st Century Energy Plan, the Commission should make renewable energy and energy-savings a priority. The cost of wind energy is declining and will be cheaper in the long run.

The Energy Plan should encourage and fund energy-saving programs. For every \$1 spent on every-efficiency, customers save \$2. This is a better use of money than building more and more costly fossil-fueled electric plants.

Sincerely,

Michael Bearer

Dear Commissioners
Chapelle, & Martinez

I write to encourage you to support the development of alternative energy sources, such as wind energy, & to provide needed financing for such development.

Please be mindful of the energy dollars that are paid by Michigan residents and how many of these dollars are sent out of state. Priority should be given to keeping Michigan money in this state, lowering adverse impact on Michigan residents, & holding energy providers accountable to customers here in Michigan. Thank you.

James Whitcomb

June 2, 2006

Commissioners Peter Lark, Laura Chapelle & Monica Martinez:

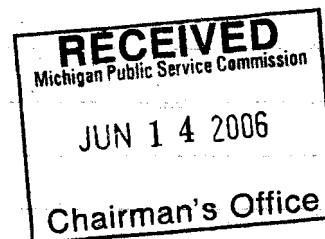

As a consumer, I feel it is extremely important to consider the short and long term impact my choices are having on the Earth. Daily, I make a conscious effort to support local businesses, recycle, eat healthfully and generally consume as little energy and other resources as possible. It makes me so hopeful for my and our future to hear of the possibilities that exist with clean, reliable, renewable energy sources and organic foods and farming methods. I hope that you do and will continue to make these items high priorities in the important decisions you make each day, and please know that you have my wholehearted support in so doing. I would love to hear back from any of you regarding your thoughts on these matters, as well as actions you are/plan to take to support them. Should you choose to respond, I can be reached at the following address:

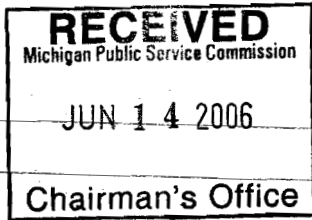

Liz Agerson
2441 Oakwood Ave. NE
Grand Rapids, MI 49505

Thank you for your time & consideration.

Sincerely,

Liz Agerson

Dear Mr. P. Lark, Mr. L. Chapelle, and Mr. M. Martiney,
Please work to bring down our use of fossil fuels.

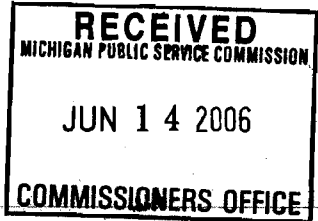

In case U-14838, the Commission should insist that DTE refund 44 million it gouged from customers through over-earnings. The Commission should send a message to all utilities that price gouging will not be tolerated.

In developing its 21st. Century Energy Plan, the Commission should make renewable energy & energy-savings a priority. The cost of wind energy is declining and will be cheaper in the future.

The Energy Plan should encourage and fund energy-saving programs. For every \$1.00 spent on energy-efficiency, customers save 2.00. This is a better use of money than building more & more costly fossil-fueled electric plants.

Please respond to my plea for increased use of wind energy to bring down our use of fossil fuel.

Thank you sincerely,
Virginia E. Gensner

Commissioners Peter Leek, Laura Chapelle, and Monica Martinez.

In case LI-14938, the Commission should insist that DTE refund the \$44 million it gouged from its customers through over-earnings. The Commission should send a message to all utilities that price gouging won't be tolerated.

In developing its 21st Century Energy Plan, the Commission should make renewable energy and energy savings a priority. The cost of wind energy is declining and will be cheaper in the long run.

The energy plan should encourage and fund energy savings programs. For every \$1 spent on energy efficiency, customers save \$2. This is a better use of money than building more and more costly fossil-fueled electric plants.

COMMISSIONERS OFFICE

TO: Peterlark, Laura Chapelle, & Monica Martinez,

I recently purchased a home in Livonia, MI. It is a beautiful neighborhood and Community. Yet, there is always a price to pay when you want nice things. Our bills are a little more than I had expected, and with Michigan's economy, jobs are hard to find. In case U-4838, I believe that DTE should refund the \$44 million to the people who need it the most. Blue collar workers who are trying very hard to make a living. We should also look towards making renewable energy & energy savings a priority. Wind energy is declining and will be cheaper. This plan to help save money and be more efficient, should encourage fund energy-saving programs. I would really appreciate a response from you, since my opinion deserves to be heard. I hope that you will take our suggestions seriously, and realize that we the people, deserve to be heard.

Sincerely,

Kristen Finlay

Commissioners Peter Lark, Luma Chapelle + Monica Martinez,
Please send a message to all utilities that
price gouging won't be tolerated and DTE
should refund the \$44 Million (U-14838).

In developing its 21st Century Energy
Plan - the Commission should make
renewable energy and energy-saving a
priority.

Also the Energy Plan should encourage
and fund energy-saving programs.

Hoping to hear about your plans
for all of the above.

Sincerely
Mrs. Dorothy A. Mills

Grand Rapids MI 49505

Dear Mr. Lark, Laura, a

I would like to make a few points that I hope you will listen to. All of these points center around my growing concern of the energy "crisis". In case U-14838 the Commission should insist that DTG refund the 44 million it gouged from its customers through over-earnings. The commission should send a message to all utilities that price gouging won't be tolerated. Also in developing its 21st Century Energy plan the Commission should make renewable energy and energy savings a priority. The cost of wind energy is declining and will be cheaper in the long run. Last, the Energy Plan should encourage and fund energy-saving programs. For every dollar spent on energy-efficiency, customers save two dollars. This is a better use of money than building more and more costly fossil-fueled electric plants. Any response you may have to these points would be appreciated.

Sincerely

Joshua McComb

Dear Commissioners,

June 9, 06

Please - regarding U-14838 - send a message to all utilities that price gouging will not be tolerated.

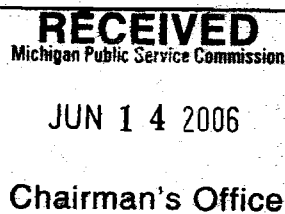

Please - make renewable energy and energy savings a priority when developing a 21st Century Energy Plan.

Please - encourage and fund energy-saving programs.

A reply would be appreciated.

Thank you and good luck in your efforts.

I would like to request you to
consider the following in providing Michigan
future electric needs:

A. An energy plan to encourage & fund
energy savings programs

B. Renewable energy & energy savings
should be a part of a state energy
plan

C. DTE should refund overcharges
its customers—

Thank you,

COMMISSIONERS OFFICE

June 7, 2006

Dear Commissioners Peter Lark, Laura Chapelle
and Monica Martinez,

As a concerned Michigan resident, I am
writing to ask you, in reference to case
U-14838, to insist that DTE refund the
\$44 million it gouged from its customers
through over-earning. The commission should
send a message to all utilities that price
gouging won't be tolerated.

In developing its 21st Century Energy
Plan, the Commission should make renewable
energy & energy-saving a priority. The cost
of wind energy is declining and will be
cheaper in the long run.

The Energy Plan should encourage and
fund energy saving programs. For every \$1 spent
on energy efficiency, customers save \$2. This
is a better use of money than building
more and more costly fossil-fueled
electric plants.

I would appreciate a response to
hear your views. Sincerely, Mary Beth Thomas

Peter Lark, Laura Chapelle &
Monica Martinez,

I would like you to
help us in our fight for clean
reliable & affordable energy.

In case U-14838 the commission
should insist that DTE refund \$44 million
it gouged from us customers through
over earnings. You should send a
message to all utilities that price
gouging wont be tolerated.

The Commission should make
renewable energy and energy saving
a priority. The cost of wind energy
is declining & will be cheaper in the
long run.

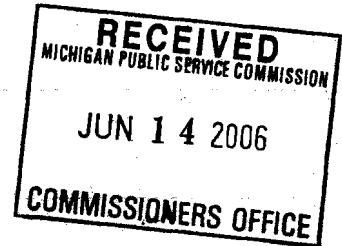

The energy should encourage and fund
energy saving programs

To:

MICHIGAN RATE SETTERS.

6-9-06

CERTAIN ISSUES HAVE BEEN BROUGHT TO MY ATTENTION BY THE MICHIGAN CONSUMER FEDERATION THAT CASE U-14838 REQUIRES CONSIDERATION TO REFUND OVER EARNINGS DUE TO OVERPRICING BY DTE IN THE AMOUNT OF 44 MILLION TO ITS CUSTOMERS.

ITEM II CONCERNS ENERGY SAVINGS AS A PRIORITY. WHAT IS BEING ACCOMPLISHED IN THIS AREA BY DTE?

CONSUMERS DEMAND A PROGRESS REPORT ON ENERGY-SAVINGS PROGRAMS.

THESE ARE MAJOR CONCERNS, AND A BURDEN TO SENIORS LIKE MYSELF WHO HAVE STRICT BUDGETS, OF WHICH ENERGY IS A MAJOR ISSUE.

MAY I RECEIVE A REPLY OF ANY ADVANCEMENTS DTE IS ACCOMPLISHING IN THE AREA OF ENERGY SAVINGS PROGRAMS AND ANY POTENTIAL REBATES.

Dear Commissioners Luth, Marting, & Chapelle,
Please make renewable energy & energy savings a high priority in the 21st Century Energy Plan. Energy efficiency is a much better use of money than more costly fossil-fueled electric plants. Regarding case U-14838, I urge you to insist that DTE refund \$44 million taken in from customers from over earnings. Price gouging ^{should} ~~not~~ not be tolerated.

Thank you

Andy Roll

P.S. Please reply with your response.
