Case No. U-14900

ELIGIBLE TELECOMMUNICATIONS CARRIER
ANNUAL REPORT OF
NEXUS COMMUNICATIONS, INC.

Nexus Communications, Inc. ("Nexus") by and through its counsel, Clark Hill PLC, and pursuant to Sections 214(e)(2), 214(e)(6) and 254 of the Communications Act of 1934,¹ the Federal Communications Commission's ("FCC") Report and Order in CC Docket No. 96-45,² Sections 201 and 203 of the Michigan Telecommunications Act ("MTA"),³ and the Michigan Public Service Commission's ("Commission" or "MPSC") October 18, 2005 and April 13, 2006 Orders in MPSC Case No. U-14530, hereby files its Eligible Telecommunications Carrier Annual Report. In support of this Annual Report Nexus states as follows:

¹ 47 USC §§ 214(e)(2) and (6) and 47 USC § 254.

² *In the Matter of Federal State Joint Board on Universal Service*, CC Docket No. 96-45.

³ MCL 484.2201 and MCL 484.2203.

I. INTRODUCTION

Nexus initially filed for designation as an Eligible Telecommunications Carrier on December 21, 2005 and was so designated by this Commission on March 14, 2006.⁴

Nexus is a Competitive Local Exchange Carrier (“CLEC”) licensed by the Commission to provide basic local exchange service in all zone and exchange service areas in the lower peninsula of Michigan in which AT&T (f/k/a is the incumbent local exchange carrier (“ILEC”) within the State of Michigan.⁵ Nexus is also registered with the Commission to provide interexchange services, and provides additional telecommunications services, including resold wireless services.⁶ Nexus’ tariff for the provision of basic local exchange service, Nexus Communications, Inc. Tariff MPSC No. 1R, has been on-file with the Michigan Public Service Commission since December 6, 2002. Nexus offers the supported services either through the lease of switched port/loop combinations (“UNEs”) or through a combination of leased services and resale.

⁴ *The Application of Nexus Communications, Inc. for Designation as an Eligible Telecommunications Carrier in the State of Michigan*, MPSC Case No. U-14742, Order dated March 14, 2006.

⁵ *The Application of Nexus Communications, Inc. for a License to Provide Basic Local Exchange Service in the Zone and Exchange Areas throughout the Lower Michigan Peninsula presently served by Ameritech Michigan*, MPSC Case No. U-13432, Opinion and Order dated Sept 16, 2002.

⁶ The FCC has determined that resold wireless telecommunications is a common carrier service. See 47 CFR § 20.9(a)(10). Therefore, in addition to Nexus’ licensed basic local exchange service, Nexus’ wireless services also meets the federal definition of common carrier for purposes of ETC designation. Nexus resells service from a variety of wireless providers, such as Verizon Wireless, and Cingular, under the Nexus name. As a reseller of wireless services, Nexus does not need a license with the FCC since the underlying carriers possess the necessary licenses.

Nexus is properly registered with the FCC to provide telecommunications services under 47 CFR § 64.1195.

This annual report follows the format outlined in Attachment A to the Commission's April 13, 2006 Order in MPSC Case No. U-14530.

II. CONTACT INFORMATION

Nexus' full name and address are set forth below:

Nexus Communications, Inc.
3629 Cleveland Avenue, Suite C
Columbus, OH 43224
(740) 549-1092
(740) 548-1173 Fax
E-Mail: sfenker1@earthlink.net

Nexus' Regulatory Contact is its Vice President, Steve Fenker.

The full names and addresses of Nexus' counsel in this matter are set forth below:

III. WIRE CENTERS IN WHICH NEXUS IS AN ELIGIBLE TELECOMMUNICATIONS CARRIER

In MPSC Case No. U-14742, the Commission designated Nexus it as a competitive Eligible Telecommunications Carrier in the non-rural telephone company wire centers and rural telephone company study areas identified in Nexus' application. The "wire center" "service areas" which Nexus identified in its Application are the areas in which AT&T is the incumbent local exchange carrier. Attached to this Application, as Attachment A, is a list of zone and

exchange areas in the State of Michigan in which Nexus has been designated an Eligible Telecommunications Carrier in Michigan. The attached list includes wire centers and switch names (CLLI codes).

IV. FIVE YEAR IMPROVEMENT PLAN

Nexus does not intend to seek federal high cost support, therefore Nexus is not required to file a Five Year Improvement Plan.

V. EMERGENCY PREPAREDNESS

Nexus offers the supported services either through the lease of switched port/loop combinations (“UNEs”) or through a combination of leased services and resale. These facilities are physical components of the telecommunications network that are used in the transmission or routing of the services for which support is requested. Because these facilities include unbundled network elements, the method by which Nexus provisions the supported services is consistent with the FCC’s rules.⁷

Each of Nexus’ network segments can be powered by backup generators that are in place, and available, in the event of an electric utility outage or emergency situation. In addition, Nexus has the technical ability to reroute traffic around damaged facilities, when such is required, and is capable of managing traffic spikes resulting from emergency situations. Because the physical network is leased from the incumbent carrier, these services are provided pursuant to the confidential leasing arrangement.

Nexus maintains the appropriate network infrastructure to sustain operations in emergency situations and is compliant with the Commission’s rules regarding Emergency

⁷ See, 47 CFR § 54.201(d).

Operations⁸ and exceeds the Commissions standards with a backup battery rated for twenty-four (24) hours of use. In addition, if customers need to contact Nexus' office in the event of a power outage or emergency, Nexus has redundant customer support lines. In the event one or more of Nexus' customer support lines are interrupted for any given period of time, additional lines (provisioned from different geographic central office and different underlying carriers) provides instant and seamless backup service.

VI. CONSUMER PROTECTION

Nexus fully complies with the Commission's Privacy Standards for Telecommunications Services,⁹ Billing Standards for Basic Residential Telecommunications Services,¹⁰ and Telecommunications Service Quality Guidelines.¹¹ In addition, Nexus maintains policies for consumer privacy protections. As part of those policies, Nexus does not disclose or provide access to individual customer records to any individual or entity, other than the customer directly, unless such records are required to be disclosed to a governmental agency as required by law. Nexus maintains individual customer records for a period of five (5) years. Nexus has implemented a system by which individual customer records are safeguarded. Nexus has trained its personnel as to when they are, and are not, authorized to disclose individual customer records. In the unlikely event that an unauthorized disclosure of individual customer records were to occur, Nexus has a procedure in place for notifying its customers. If such were to happen, notice to the affected customer would be in writing, with the Company's name, a description of the

⁸ MAC R 484.546.

⁹ MAC R 484.201 *et seq.*

¹⁰ MAC R 484.301 *et seq.*

¹¹ MAC R 484.519 *et seq.*

unauthorized disclosure of individual customer records, the remedy plan proposed, and notification of whether this Commission was notified and what action was taken by this Commission.

Nexus advertises the availability of its Lifeline/Link-up Services through various forms including print media. A copy of such print media advertisement is attached hereto, as Attachment B.

VII. LOCAL USAGE

As indicated on the 2nd Revised Page 62 and the 2nd Revised Page 66 of Nexus' Tariff MPSC No. 1R, effective April 1, 2006, Nexus offers one (1) package of basic local exchange service to businesses and three (3) packages to residential customers. Each of the calling plans are offered on a state-wide basis, within Nexus' licensed service area. Business customers are offered a single flat rate plan, with an unlimited number of local calls. Residential customers may choose between three plans. The Residential Unlimited Calling Plan entitles the customer to unlimited outgoing calls per month within the local calling area without additional charge beyond the monthly rate per access line. The Residential Calling Plan 400 is a plan that entitles the customer to up to four hundred (400) calls within the Local Calling Area per month. Each additional call within the Local Calling Area, under the Residential Calling Plan 400, in excess of the four hundred (400) call allowance is subject to a per call local call charge, regardless of the length of the call. The Primary Basic Local Exchange Service ("PBLES") plan allows the Customer to pay a monthly rate per access line that includes up to one hundred (100) outgoing calls per month per line and unlimited incoming calls. With PBLES an additional usage charge applies for each outgoing local call after the monthly one hundred (100) call allowance is exceeded. Usage charges are billed on a per-call basis, regardless of the length of the call.

Nexus does not bundle long distance service with any of these calling plans, unless requested by the customer.

Competitive demands require that Nexus continue to offer local usage plans comparable to those offered by the incumbent carrier and Nexus acknowledges that the above plans are comparable to that of incumbent carrier. Further Nexus acknowledges that it will continue to offer local usage plans comparable to those offered by the incumbent carrier, pursuant to Section 54.202(a)(4) of the FCC's rules.¹²

VIII. EQUAL ACCESS

In the unlikely event that the incumbent carrier, AT&T Michigan, declares bankruptcy, abandons its Michigan territories, or has its license to provide basic local exchange service revoked by this Commission, Nexus is prepared to raise the capital to purchase central offices and local loops for which Nexus has customers (whether such customers are Lifeline/Link-up or non-subsidized). In the event that Nexus is unsuccessful in purchasing such assets, it will pursue all means necessary to lease appropriate network facilities and last mile loops from the future incumbent carriers, who are successful in such purchases, through commercial agreements. In any event, Nexus will seek to maintain continuous and transparent service to its existing customer base.

Nexus acknowledges that, pursuant to Section 54.202(a)(4) of the FCC's rules,¹³ the Commission may require it to provide equal access to long distance carriers in the event that no other eligible telecommunications carrier is providing equal access within the service area.

¹² 47 CFR § 54.202(a)(4).

¹³ *Id.*

Likewise, if Nexus were to become the incumbent carrier, or if no incumbent carrier were prepared or authorized to serve as an Eligible Telecommunications Carrier, Nexus is prepared to provide Lifeline/Link-up service to all requesting customers in its service territory.

IX. ADDITIONAL SERVICE PROVISIONS.

Nexus provides the services that are eligible for universal service support, as described in 47 CFR § 54.101, including (1) voice-grade access to the public switched network, (2) local usage, (3) dual tone multi-frequency signaling or its functional equivalent, (4) single party service or its functional equivalent, (5) access to emergency services, (6) access to operator services, (7) access to interexchange services, (8) access to directory assistance, and (9) toll limitation for qualifying low income customers.

X. CONCLUSION

In its March 14, 2006 Order in MPSC Case No. U-14742, this Commission granted Nexus Application for designation as an Eligible Telecommunications Carrier for purposes of universal service fund support. Nexus respectfully requests that this Commission submit its name to the Federal Communications Commission on the October 1, 2006 list of Eligible Telecommunications Carriers for the State of Michigan.

Respectfully Submitted,

CLARK HILL PLC
