About Us

Allendale Communications has been serving Allendale since 1910. In 1997, we received our license to provide a local choice in Coopersville. Construction has been on-going as we work to offer our service to everyone within the licenses area (see the Calling Area Maps for more detail).

The goal of Allendale Communications is to locally provide quality communication services to the residents and businesses in Allendale and Coopersville. We also serve most of Kent and Ottawa Counties with our dial-up Internet Service.

Basic Telephone service is only the foundation of our services. As an independent telephone company, Allendale Communications is very nimble and able to research, develop and deploy new technologies very quickly. Customers in our service area are able to utilize the industry's newest technologies.

Most of the cable which is installed underground today is fiber optic cable. Our switch is the latest in digital technology and is upgraded on a regular basis.

Altelco.Net Internet Services

Our goal is to provide dial-up Internet Service that is fast and easy use. All of our packages include FREE hook-up, NO contract and up to 5 e-mail accounts.

All services are backed by a low customer-to-modem ratio (so customers do not get a busy signal when trying to connect) and 24/7 help desk.

Accelerated Dial-Up Service

Allcom.net offers an accelerated dial-up service called "Nitro-Dial" which will help increase browsing speeds.

Nitro-Dial will:

- ⊗ Load images 3-6 times faster on your PC
- ⊗ Eliminate the need for high-speed DSL or Cable Access
- ⊗ Not require any extra hardware

[Click here to check the minimum system requirements and to download Nitro-Dial](#)

[<Back to Top>](#)

Additional E-Mail Accounts

Additional Addresses

The Crazy Eight and Crazy Eight + NitroDial accounts include 5 e-mail addresses. To add separate e-mail addresses for each member of your family call us at 895-9911. We will need your account number, your primary login/user name, and a separate user name and password for each additional user.

Accessing Additional e-mails:

Netscape 4.5 and Internet Explorer can be set up to allow multiple users.

Other software programs can also be used for the extra e-mail accounts. If you use another program, the settings will need to be changed as follows:

- ⊗ Outgoing Mail (SMTP) Server: mail.altelco.net
- ⊗ Incoming Mail (POP) Server: mail.altelco.net
- ⊗ Pop User Name: login/user id
- ⊗ E-mail Address: (login/user id)@altelco.net
- ⊗ Reply To Address: (login/user id)@altelco.net

Virtual Domain Hosting Rates

Virtual Domains can be used for two reasons.

1. If you would like your email address to identify your business, then you can apply for a Virtual Domain name at www.networksolutions.com. Your e-mail would then be yourname@yourbusinessname.com rather than yourname@alteco.net.
2. If you would like to create and maintain a web site for yourself or your business, then you should apply for a Virtual Domain name at networksolutions.com. Your e-mail would then be yourname@yoursitename.com rather than yourname@alteco.net.

We can assist with setting up your Virtual Domain once you have registered the name. There are several options and rates listed below.

Option	Cost	Details
Virtual Domain Installation Charge	\$20.00	
Virtual Domain Hosting	\$20.00/mo.	10MB storage space 10 e-mails 1 alias
Additional Storage Space	\$5.00/mo.	1 MB
Additional E-mails	\$1.00/mo.	1 user name
Additional Aliases	\$5.00/mo.	1 alias
Virtual Domain Hosting for Non-Profit Groups	\$5.00/mo.	Must provide non-profit i.d. number
Domain Name Only (with alteco.net dialup account)	\$5.00/mo.	gives you an email with your business name. Monthly charge is in addition to monthly dial-up rate.
Virtual Domain with ISDN or DSL account	\$10.00/mo.	Monthly charge is in addition to DSL or ISDN charge.
Additional IP Addresses	\$10.00/mo.	

[<Back to Top>](#)

Free Personal Web Pages

You can create your own personal web page and FTP it to our server for free. There is no charge for this if you are an altelco.net customer (with any package other than the e-mail package).

[Click here for information on an FTP application.](#)

There are many programs available (like Microsoft Front Page) to use for creating a web page for your business. All business altelco.net customers also have free storage space for their web pages. Please call us if you require technical help.

[<Back to Top>](#)

Internet Service Areas

Altelco.net services can be accessed locally from most communities in Kent and Ottawa Counties. Our dial-up numbers are 459-xxxx, 895-xxxx, 997-xxxx and 846-xxxx. If you can dial any of these exchanges as a local call, then the connection to altelco.net will also be a local call. Customers with Friends & Family telephone service can also make a toll-free call to altelco.net.

Some of the communities we serve include:

- ⊗ Ada
- ⊗ Allendale
- ⊗ Borculo
- ⊗ Byron Center
- ⊗ Cascade
- ⊗ Comstock Park
- ⊗ Coopersville
- ⊗ Dorr
- ⊗ Dutton
- ⊗ East Grand Rapids
- ⊗ Ferrysburg
- ⊗ Fruitport
- ⊗ Grand Rapids
- ⊗ Grand Haven
- ⊗ Grandville
- ⊗ Holland
- ⊗ Hudsonville
- ⊗ Jenison
- ⊗ Kentwood
- ⊗ Lowell
- ⊗ Marne
- ⊗ Muskegon
- ⊗ Rockford
- ⊗ Sparta
- ⊗ Spring Lake
- ⊗ Walker
- ⊗ West Olive
- ⊗ Wyoming
- ⊗ And more!

If you have a question about our service area, please email us at support@altelco.net.

Internet Service Rates**Bringing you the world with one local call**

We now provide Internet access to these Southwest Michigan areas--with toll free access from the towns of Allegan, Bloomingdale, Bangor, Covert, Decatur, Fennville, Ganges, Gobles, Grand Junction, Hopkins, Kalamazoo, Lacota, Lawrence, Lawton, Martin, Mattawan, Paw Paw, Portage, Otsego, Pullman, Saugatuck, Shelbyville, and South Haven. (Bloomingdale Communications cannot accept any responsibility for long distance calls made to our Internet connections.)

Don't wait, sign up through our [Online Internet Service Application](#) today!

Rates

Our rates are the simplest around with no hidden fees.
Unlimited access and 3 e-mail addresses is only \$19.95 per month.
50 hours a month and two e-mail addresses is \$14.95 per month
25 hours a month with one e-mail address is only \$9.95.
There is no set-up fee for new customers and additional e-mail addresses are only \$1 a month each.

Unlimited Access unfortunately does not mean Unlimited Usage and we at Bloomingdale Communications reserve the right to restrict or terminate the service of any customer who in our opinion is abusing our services by "camping on".

Internet Service Agreement

We must all have rules so we know how the game is to be played and our business is no different. Please take a few moments to review our [Internet Service Agreement](#) and Happy Surfing!!

Please be courteous

As your Internet Service Provider it is our responsibility to see that we have adequate equipment to maintain a certain level of expected service. This does not mean that you will never experience a busy signal when attempting to get to the net. The only way to guarantee this type of service is to have a dedicated connection which most users do not want to pay for. At peak periods during the evening there may be some busy conditions however these do not normally last more than a few minutes. Please be a courteous user and remember that you are sharing equipment with others.

The **Deerfield Farmers Company**, organized in 1908, provides exchange service and access to a switched telephone network. Our local service area includes both Deerfield and Farmington. In 1994, at a special shareholders' meeting, the company was reorganized and became a subsidiary of **D & P Communications**.

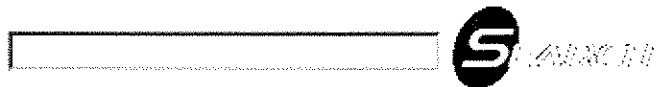

This was in response to the need to organize and market non-regulated services in an effective and timely manner. Our telephone plant now consists of standard copper cable, fiber optic cable, and coaxial cable. We have been using a Hybrid Fiber Coax network since Dec. of 1994 to provide telephone service to selected areas of our exchange. This new technology (which is digitally based) allows us to extend the digital portion of our phone system to the side of the house.

VISION STATEMENT FOR D&P COMMUNICATIONS

D&P Communications through highly skilled, dedicated professionals, delivers to our communities a comprehensive selection of the finest State Of The Art Communications Technology marketed today.

ANNOUNCEMENTS

Home & Sport Show Winners

Pictured from left to right Jean Lind & Kathy Dishaw

OCTC had a booth at the Y101 Home & Sport Show held in Ontonagon on April 7-9, 2006. OCTC displayed a theme of past and present pictures. The weekend promotion was free class & customer calling features for one month and no connection charge. Drawings were also held to give away a cordless Caller ID phone, a stadium blanket, and free helium balloons for the kids. Winners were Jean Lind (blanket) and Randy Dishaw (phone). Manning the booth for the weekend were Sandy Roehm, Connie Peterson, Gina Roehm, Jenna Sharkey, Fred Lundberg and Dorothy Sharkey.

Expanded Local Calling Frequently Asked Questions

OCTC's Pledge

Having the unique distinction of being Michigan's first telephone company, the Ontonagon County Telephone Company's purpose is a provider of first-rate Telecommunications services. We value our customers and strive to provide high quality and affordable services. Our Employees are one of our most important assets and are given the opportunities and tools necessary to achieve our goals. We support our community's activities in our serving area to enhance our quality of life in the Western Portion of Michigan's Upper Peninsula. We conduct our business with integrity and confidentiality. Our capital expenditures are weighed thoroughly against economics and technology to retain future financial security.

YOUR FULL SERVICE TELEPHONE COMPANY

Our local service is fully digital. We offer a large range of custom calling features and a full line of phone products. See our related pages for full details and ordering information.

Terms and Conditions

Kaltelnet TERMS & CONDITIONS

Use of the Kaltelnet.net Internet Service constitutes acceptance of these Terms and Conditions.

1. Kaleva Telephone, by providing Kaltelnet.net Service exercises no control whatsoever over the content of the information passing through it and you are forewarned that some information you receive may be offensive or, on occasion, obscene. If you are offended by certain language or expression of certain ideas, then by signing onto this service you acknowledge that you have read this warning and will not hold Kaleva Telephone Company, its affiliates, subsidiaries or suppliers responsible for any language, thoughts, discussions or graphics which may be part of information viewed by you on the Internet system. You are warned that it is illegal and against Kaleva Telephone Company policy for children to view, load, or in any other way access adult material (graphics, audio or text) and that any violation of this rule will be prosecuted to the full extent of the law. As Kaleva Telephone Company does not desire to degrade the exchange of legitimate information contained on the Internet, any information originated by you must comply with these Terms and Conditions.
2. Kaleva Telephone Company makes no warranties of any kind, whether expressed or implied, for the service it is providing. Kaleva Telephone Company also disclaims any warranty of merchantability or fitness for a particular purpose. Kaleva Telephone Company intends that the service be used for educational and recreational purposes only. Kaleva Telephone Company will not be responsible for any damage you suffer. This includes loss of data resulting from delays, non-deliveries, misdeliveries, or service interruptions caused by its own negligence or your errors or omissions.
3. Kaltelnet.net may only be used for lawful purposes. Transmissions of any material in violation of any US or state regulation is prohibited. This includes, but is not limited to: copyrighted material, material legally judged to be threatening or obscene, or material protected by trade secret. You agree to indemnify and hold harmless Kaleva Telephone Company, its affiliates, subsidiaries and suppliers from any claims resulting from your use of the service which damages you or another party.
4. Any access to other networks through Kaltelnet.net must comply with the rules appropriate for that other network.
5. All postings to USENET must comply with the etiquette guidelines posted in news.announce, newusers, and also with the posted charter of the newsgroup(s) to which you are posting. Non-compliance with these rules will result in the termination of your account without prior notification.
6. All use of Kaltelnet.net must be within the restrictions associated with your account and as set forth herein. Kaleva Telephone Company reserves the right to terminate service to accounts that exceed their restrictions.
7. You are responsible for the protection of your account and data. You are advised that the Internet is not a secure system. Data can and often is, viewed by third parties. Information of a private or confidential nature should not be placed on the system or if it is you should take steps to protect it using encryption technologies. Kaleva Telephone Company specifically denies any responsibility for the security of your account and the data stored in Kaleva Telephone Company facilities. Kaltelnet.net is not a storage facility and customers wishing to safeguard their data should make back-ups and store them in a secure place.
8. Use of any information obtained via the Kaltelnet.net communications service is at your own risk. Kaleva Telephone Company specifically denies any responsibility for the accuracy or the quality of the information obtained through its service.
9. User identifications and passwords will be generated by Kaleva Telephone Company. E-mail addresses will be generated by subscribers to the service. Password change charges may apply.
10. The sharing of passwords or accounts is strictly prohibited and violators are subject to the cancellation of their accounts without prior notice.
11. The resale of the Kaltelnet.net Service or any other associated services by any and all means is strictly prohibited unless approved in advance in writing by Kaleva Telephone Company.

12. Kaleva Telephone Company will bill for Kaltelnet.net Service monthly. Payments are due when the bill is rendered and are payable at any payment center designated by Kaleva Telephone Company.

If payment in full is not received by the next bill date, the account will be considered in default and service may be terminated. Finance charges of 1 and 1/2% per month will be applied against any past due balance.

If your account is disconnected for any cause, you will be charged \$40.00 to be reconnected and you may be required to pay for monthly service in advance.

13. Kaleva Telephone Company's return check charge is \$25.

14. Service may be canceled by either party, in writing, at any time with no penalty. If you elect to terminate your service in this manner, charges will cease upon receipt by Kaleva Telephone Company of your written request.

15. Kaleva Telephone Company reserves the right to change the rates and otherwise modify these Terms and Conditions by notifying you 10 days in advance of the effective date of the change. If you do not request your service to be terminated, it will be conclusively presumed that you consent to the new terms, conditions and rates as notified.

16. These Terms and Conditions supersede all previous representations, understandings or agreements and shall supersede any other terms and conditions of any order submitted or prior price quoted.

17. It is recognized that the Internet may contain viruses which may, if not eliminated, destroy parts or all of the data contained in your computer. Kaltelnet.net has no control over these viruses. Kaltelnet.net does not provide any filtering or checking of data to eliminate these viruses. You agree to provide your own mechanism for checking your computer system for viruses and hold Kaleva Telephone Company, its affiliates, subsidiaries and suppliers faultless for any damage caused by viruses obtained through Kaltelnet.net. Further you agree not to introduce, knowingly or unknowingly, any virus onto the Internet system or Kaltelnet.net's hosts. Further you hold Kaleva Telephone Company, its affiliates, subsidiaries or suppliers harmless from, and to indemnify Kaleva Telephone Company, its affiliates, subsidiaries or suppliers for, any damages resulting from any viruses, software bugs introduced by you into the Internet or Kaleva Telephone Company systems.

18. Kaleva Telephone Company reserves the right to disconnect an active session.

OGDEN COMMUNICATIONS, INC.

**We now accept Visa and Mastercard
for monthly payments! Call today.**

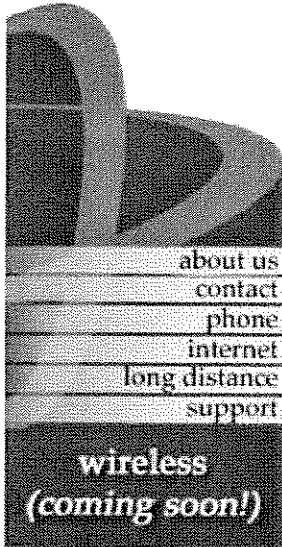

Today's Date is: Tuesday, June 06, 2006

8:07:02 AM

Ogden Communications, Inc. (OCI) was officially formed on July 1, 2003 as the result of the reorganization of Ogden Telephone Company (OTC). The increasing changes in the telecommunications industry have prompted this action. OCI is a Holding Company for Ogden Telephone Company, Cass Cellular

Partnership, Ogden Long Distance, Ogdentelnet, and the Great Lakes Comnet interest. OCI has 171 stockholders and 89,144 shares outstanding. The annual meeting of the Company is held the 4th Monday of June.

Ogden Telephone Company is the Incumbent Local Exchange Carrier for the Ogden Center Exchange. It was formed in 1910 with 149 Shareholders who paid \$25.00 for a share of stock. It was a Magneto System with an operator at a switchboard until 1969. That year the Company installed a "Stepper Switch" and began using the General Telephone Company operators. Through the years the Company has gone from the Magneto System, the "Stepper Switch", a Siemens Digital Switch and in 2005 a Coppercom soft switch was installed. In 1989, Ogden won the Federal Communications Commission lottery of spectrum in RSA #9 (which is the lower tier of Michigan south of Jackson). Cass Cellular was formed as a partnership with four other telephone companies to manage the cellular company. There are four companies in the partnership in 2005. They are Ogden Communications Inc., Sand Creek Communications Company, D&P Communications and Fox Communications.

SERVING PIGEON, TWINING, ALBA AND LAKES OF THE NORTH

Pigeon Telephone Company

Providing outstanding telephone and customer services to rural Michigan communities since 1908.

Welcome to Pigeon Telephone Company

Pigeon Telephone Company, located in Pigeon, Michigan, has a long and rich history of meeting the telecommunications needs of the rural communities it serves since 1908.

Today, Pigeon Telephone Company is a locally- and family-owned business still serving the Pigeon exchange as well as other Michigan exchanges in Twining, Alba and Lakes of the North area.

Serving over 3500 residential and business subscribers, Pigeon Telephone Company recently expanded its Pigeon service area to include the Sand Point and Mud Creek areas.

We are proud to offer our customers an expanded calling area, modern calling features and personable customer service as well as DSL Internet Service through our sister company, AVCLnet.

AVCI.net History

On April 10, 1996, Pigeon Telephone Co. began offering local dialup Internet connections to its customers in the Pigeon, Twining and Alba/Lakes of the North telephone exchanges in Michigan under the name Agri-Valley Services. A subsidiary of Agri-Valley Communications, Inc., the company is more commonly known by its website, AVCI.net.

Quickly realizing the growing demand for Internet connectivity in the area, the company expanded its service area to include most of the Thumb counties of Huron, Tuscola and Sanilac.

Over the years, AVCI.net has met the demands of its customers with the latest technology and improved service, including the launch of High-Speed Broadband Service in 2004.

Today the AVCI.net service area has increased to include most of Michigan's Lower Peninsula with an accelerated dialup service as well as nearly complete coverage of the Upper Thumb Region with High-Speed Broadband.

AVCI.net is service oriented with exceptional technical support and customer service specialists that are available to assist with connectivity issues via email, telephone or in person at our office in Pigeon. This commitment to quality customer service and customer satisfaction along with quality Internet services makes AVCI.net the leader as an Internet Service Provider.

With this commitment to the communities it serves and dedication to maintaining state of the art technologies, AVCI.net is poised to move forward and continue to expand Broadband coverage to many locations throughout Michigan.

GETTING YOU CONNECTED.

This is a small list of some of the most Frequently Asked Questions (FAQs) that we receive from our Alphacomm.net customers. If you have a more specific problem or can't find your question in this list, please feel free to contact us by E-mail or Phone.

1. What is Alphacomm's dial-up number?
2. What is your modem to user ratio?
3. What is your Technical help number and hours available?
4. Is there a setup fee?
5. How many e-mail accounts am I entitled to?
6. How do I change my home page?
7. How do I save my password so I do not have to enter it each time I want to connect to the Internet?
8. When is my bill due?
9. I keep getting disconnected when checking my email, what's wrong?
10. What are my payment options?
11. My password keeps getting rejected. What's wrong?
12. Why is my computer giving me the error message that there is no dial tone?
13. Why can't I get any pages to display?
14. Why do I get dropped from my connection when I am just surfing the net?
15. What are your prices and do you offer any specials?
16. I can send E-mail okay but I cannot receive any ... What's wrong?
17. I can receive E-mail okay but I cannot send any ... What's wrong?
18. How do I set up different identities for my email?

What is your dial-up Number?

If you live in Otsego County our dial up number is 939-4010

If you live in Menominee County our dial up number is 753-9899

BACK TO THE TOP

What is your modem to user ratio?

We have a modem to user ratio of 7 to 1. Which means that we have up to 7 customers per dial up line. The average Internet company has a ratio of 10 users per line. This means that there is a significantly lower chance of getting a busy signal with Alphacomm.net

BACK TO THE TOP

What is your Technical help number and hours available?

You can reach us at 639-3500 or 753-6410, or 877-450-3500 24x7x365

Our current hours for service and repair are Tuesday and Thursday 12:30 to 6:00 PM or you can call and schedule an appointment.

BACK TO THE TOP

Is there a setup fee?

All Alphacomm.net customers are entitled to one FREE setup. We only charge for setups 2 and beyond.

[BACK TO THE TOP](#)

How many e-mail accounts am I entitled to?

All customers are entitled to 2 email accounts for free, but can increase this to an unlimited number of E-mail accounts for a small monthly fee. However additional E-mail accounts do not allow for multiple logins. (several different users being logged in at the same time) For this you would need multiple login accounts.

[BACK TO THE TOP](#)

How do I change my home page?

If you are using Internet Explorer click on Tools, then click on Internet Options, then click in the box labeled "Address" and type in the address you would like to have set as your home page. (such as www.alphacomm.net) :-)

[BACK TO THE TOP](#)

How do I save my password so that I don't have to enter it each time I connect to the Internet?

- A) double click on the Shortcut to Alphacomm.net icon
- B) enter your password
- C) click on the little white box next to the "save password" dialog
- D) connect to the internet

This will then save the password for you. If you find that the little white box is grey then you should follow these steps:

- 1. click start
- 2. click find (search)
- 3. enter *.pwl in the name box
- 4. Delete **all** files with the .pwl extension.
- 5. reboot computer

The computer may then ask you to enter a password when it boots up. **DO NOT** enter in a password simply hit enter and then the computer will boot up. After rebooting is done return to the beginning of this topic and repeat steps A - D. Your password should now be saved.

[BACK TO THE TOP](#)

When is my bill due?

All bills for the internet are issued on the 20th of the month for the next months service. Your payment is due by the 1st of the month. Please refer to our [billing policies page](#) for more details.

[BACK TO THE TOP](#)

I keep getting disconnected when checking my E-mail, what's wrong?

Chances are, there is a setting in your E-mail program that automatically hangs up your internet connection after sending and/or receiving. In Outlook Express this setting can be found by going to Tools, then to Options, then to Connections. Make sure there is no check mark in the box next to Hang up after send/receive.

What are my payment options?

1. Pay by cash check or charge at our Carney office M - F 8:00 A.M. - 4:30 P.M. (397 US 41 N)
2. Pay by cash check or charge at our Stephenson office Tuesdays and Thursdays 12:00 P.M. - 6:00 P.M. (S716 US 41)
3. Mail your payment to P.O. Box 89 Carney, MI 49812
4. Pay by Credit Card on-line at www.alphacomm.net

BACK TO THE TOP

My password keeps getting rejected. What's wrong?

Typically this means that there is a typing error in the way you have entered the password. Remember that your password is case sensitive (bob is different than Bob) and that 0 (zero) and o (the letter) are not the same. Also check to make sure that your CAPSlock key is not on. any extra space or symbol (!@#\$%^&*|?/\) will cause your password to be rejected.

BACK TO THE TOP

Why is my computer giving me the error message that there is no dial tone?

The first thing you should check is that your phone line is in working order. You can do this by picking up a phone plugged into the same line. If there is dialtone, then move the phone to the jack the computer is plugged into and test again. If there is dialtone on the phone then you probably have a bad modem and should have a qualified technician check and possibly replace it. If there is NO dialtone then you need to contact your phone company.

BACK TO THE TOP

Why can't I get any pages to display?

There are many possible answers to this, we've listed the most common ones: 1. Your settings for the internet are wrong. Check your DNS setting and make sure that they are set for server assigned addresses. 2. You may have a virus. Make sure you have virus protection and that it has been updated within the last 7 - 14 days. 3. The page you are trying to view is not working. Try a different address and see if that works ,if it does, try your original page again later.

BACK TO THE TOP

Why do I get dropped from my connection when I am just surfing the net?

This often occurs because of bad settings in you computer or a virus. Please refer to the previous question for how to check this. The other options are either a bad modem or a noisy phone line. These can be checked by a qualified technician from either Alphacomm.net or the local phone company respectively.

BACK TO THE TOP

What are your prices and do you offer any specials?

Due to the lengthy answer I would have to give in response to that question, I will refer you to our [price listing](#)

BACK TO THE TOP

I can send E-mail okay but I cannot receive any ... What's wrong?

Please verify that the settings you have in your E-mail program are correct for the incoming and outgoing mail servers (POP3/SMTP). Both should be mail.alphacomm.net. For more details, please see the setup instructions pertaining to your operating system (listed at the top of the page in the menu bar)

BACK TO THE TOP

I can receive E-mail okay but I cannot send any ... What's wrong?

Please verify that the settings you have in your E-mail program are correct for the incoming and outgoing mail servers (POP3/SMTP). Both should be mail.alphacomm.net. For more details, please see the setup instructions pertaining to your operating system (listed at the top of the page in the menu bar)

BACK TO THE TOP

How do I set up different identities for my E-mail?

Please see our on line instructions for setting up E-mail.

About Us

Our (Hi)story...

Telephone service in the Waldron area is believed to have begun in the early 1900's possibly as early as 1904 through the early efforts of area residents.

On March 31, 1913 a Memorandum of contract listed the owners and operators of Waldron Telephone Company to be Guy Smith, Carl Case, E. F. Conner and A. A. Kalder.

The company was purchased and turned over to John R. Fox on Sept. 1, 1946. At that time the outside plant was in very poor condition. Most of poles were broken down and the telephone lines were laying on the ground. Outside plant repairs began immediately. On June 28, 1971 a new project for Waldron Telephone Company begun. The company was granted a Rural Electrification Administration loan for the project would include 100% buried service cable drop, construction of a new central office building, and an all new Stromberg Carlson switch.

John R Fox president and manager of Waldron Telephone Company passed away on May 26, 1982. He married Kathryn J. Yeagley on May 29, 1947. Upon her husbands death Kathryn took over ownership and management of the company.

A Northern Telecom DMS-10 digital switch was cut into service on August 25, 1990. This upgrade brought Equal Access Service and Custom Calling Features to Waldron area residents.

August 31, 1994 was the connection date of two A-links, circuits which connected Waldron Telephone Company to Ameritech. With this connection Waldron Telephone Company upgraded its switch to a Signaling Systems 7 network which enabled the company to offer Class Calling Features such as calling number delivery, automatic recall, and selective call rejection to name a few.

Waldron Telephone Company remains owned and operated by Kathryn J. Fox and her staff consisting of four employees.

The company is a partner in Cass Cellular and is an authorized agent for Alltel. Local internet access is also available to Waldron, Prattville, and Ransom customers thru Cassnet. The Cassnet Internet Partnership was developed through the efforts of Sand Creek, Deerfield Farmer's and Waldron Telephone Companies.

Mission

"Our mission is to anticipate, understand and exceed our customer's expectations by offering leading edge communications technologies backed by exceptional service and support"

HIGH-SPEED INTERNET

Want faster, higher-quality Internet service without the hefty price-tag? You've come to the right place!

These ADSL offerings are available in Waldron (517-286) only. If you are not in this area but would like high-speed Internet, see the WildBlue section below.

All pricing effective May 1, 2006

Price	\$29.95/mo	\$42.95/mo	\$52.95/mo
Speed (Down/Up)	256/256Kbps	512/256Kbps	768/256Kbps
Email Addresses	5	5	5
Web Space	10MB	10MB	10MB
Spam & Virus Filtering	Included	Included	Included
24x7 Support	Included	Included	Included

Current customers, take advantage of this rock-bottom pricing simply by committing to a new 12 month agreement.

Alacarte Items

· Speed Change	\$30.00 per change
· Add'l Mailboxes	\$0.60/mo each
· Add'l Up/Down Stream	\$5.00/mo per 64KB
· Modems	CURRENT MARKET PRICE
· Inline Filters	\$4.10 each
· ADSL/Splitter	\$32.00 each

System requirements:

Windows 98, Processor 233 MHz, 256 Mbyte RAM, 100Mbyte disk space, Ethernet Card that is compatible with all operating systems that support TCP/IP over Ethernet, and ADSL modem. We recommend purchasing one of the modem we stock. You may purchase your modem equipment elsewhere however Waldron Communication will not be able to provide help desk services on that equipment.

ADSL service will use the same line as your current telephone service. Therefore, a splitter or inline filter will be required. Waldron Communication Co. has these in stock and are ready to serve your needs.

If you are running a network in your home or business you will also need a router to share your connection in your network. Please contact us to discuss your networking options.

Order Now! Call or email us ... 517.286.6211 or info@wcomco.net
Questions? Call our 24x7 Help Desk at toll-free 1.800.594.1320

WIRELESS INTERNET

This service comes "no strings attached"! You don't need any telephone lines to surf the web at top speeds ... it's all done through the air!

All pricing effective March 30, 2006

	Value Plan	Select Plan
Speed*	512 Kbps	768 Kbps
Price - 3 yr commitment**	\$49.95/mo	\$59.95/mo
Price - 2 yr commitment**	\$53.95/mo	\$63.95/mo
Price - 1 yr commitment**	\$59.95/mo	\$69.95/mo

* Actual speeds may vary and uninterrupted service is not guaranteed.

** Price does not include installation. Call for installation fees.

Pricing subject to change.

All pricing plans include

- 10 MB Web Storage
- 5 E-mail Accounts
- MyMail™ Spam & Virus Filtering
- Access to NetCentral Web Portal
- Web-based E-mail Access
- 24/7 Tech Support
- Surge Protection
- Single Port Router

Alacarte Items

· Add'l Mailboxes		\$0.60/mo each
· 4 Port & Wireless Router Upgrades		CALL FOR CURRENT PRICING
· Networking		\$35.00/hour

System requirements:

Windows 98, Processor 233 MHz, 256 Mbyte RAM, 100Mbyte disk space, Ethernet Card that is compatible with all operating systems that support TCP/IP over Ethernet.

Our wireless service will need no phone line.

If you want to connect more than one computer to your wireless service within your home or business you will need to upgrade to a multiple port network router or wireless router combination. We have routers in stock and are ready to meet your home or business networking needs whether it be a wired or wireless network.

Click here for our Wireless Service Fair Access Policy or here for our Wireless Service Customer Agreement.

Order Now! Call or email us ... **517.286.6211** or **info@wcomco.net**
Questions? Call our **24x7 Help Desk** at toll-free **1.800.594.1320**

DIAL-UP INTERNET

Looking for a cost-effective solution to getting online without sacrificing quality? Our dial-up solution is just what you need.

Dial-up Internet is available in Waldron (517-286), Ransom (517-567), Prattville (517-383), Hudson (517-448) and Morenci (517-458). If you are not in this area but would like high-speed Internet, see the WildBlue section below.

1998 with the desire to bring more affordable long distance service to our community. It is with that same passion and desire that we continue to offer a broad range of customer-focused communication services.

We take pride in the communities we serve. We live where you live and thus understand your needs better than any other communication provider. As a local provider, we are right here to make sure that your needs are met and expectations exceeded.

A Perfect Partnership!

Through a partnership with the National Rural Telecommunications Cooperative (NRTC), we are able to offer you high-quality, cost-effective DirecTV service and WildBlue high speed Internet service. Both of these offerings help us broaden our reach and suite of services. Add those to our long distance service, high speed DSL Internet, wireless Internet, dial-up Internet, web hosting and other services - and you start to see just how much Waldron Communications can do for you!

About Winn Telecom

Winn Telecom is part of Winn Telephone, a name that residents and businesses of central Michigan have trusted and relied on for almost 100 years.

Mt. Pleasant-based Winn Telecom – with an office also in Gaylord – is a competitive local exchange carrier providing local and long distance telephone service as well as Internet and data services to residential and businesses in 48 cities within the 989 area code. More than 2,000 customers over a network of 7,500 lines are now part of the Winn-ing tradition of telecommunications savings and success.

When you make the call to Winn Telecom, you're partnering with a team of experts who combined have over 300 years of telecommunications management and technical know-how. And whose only goal is to provide customers with winning service, winning products, and winning savings.

Mission Statement

Winn Telecom is a resource of people committed to providing both superior customer service and telecom services to the communities in which we do business.
