Re: Natural Gas Supplier License of Shell Energy Service Company, L.L.C.

Dear Ms. Kunkle,

Shell Energy Services Company, L.L.C. ("Shell Energy") was granted a natural gas supplier license by the Michigan Public Service Commission on June 29, 2004 in Docket U-14162. Shell Energy no longer wishes to have a Michigan gas supplier license and desires to voluntarily relinquish that license.

Shell Energy was granted a supplier license to operate retail natural gas service in Michigan, conditioned on meeting the in-state office requirement. Shell Energy has never contracted for or set up an in-state office, it has never engaged in any marketing activities in Michigan, and it has no natural gas customers in Michigan.

Shell Energy has announced the sale of all of its customer contract assets (all of which are in Georgia and Ohio) to MxEnergy and the two companies are moving toward an expected transaction close date of August 1, 2006. Accordingly, Shell Energy requests that the Commission grant its request to cancel its gas supplier license with immediate effect.

Sincerely,

Harry Kingerski
Regulatory Affairs Manager
Shell Energy Service Company, L.L.C.
